Administrators (AIEA)

Key Points from Presentations

- What stood out to you from the presentations you just heard? What surprised you? What insights did you gain?

Highlights from Presentations

- Usage of mixed methods – at different levels
- Quality supervision/intervention important (ie frequent contact w/ faculty, students...)
- Importance of understanding motivation
- Use of evaluation data
- Need for more longitudinal program evaluations

Questions to Consider

- What are you doing in terms of program evaluation (ie mixed methods)?
- How do your program evaluations align with overall program goals and outcomes?
- How are you using data from program evaluations?
- How are you communicating evaluation data?
- How are you assessing your evaluation process?
